Handmade Guitars From JAPAN

Bacchus

Introduction...

The Bacchus brand offers a wide range of products, from entry models for the beginner to the high-end guitars for the most discriminating connoisseur guitarist. Our "Handmade Series" are crafted by experienced luthiers with a sharp eye for detail, while our "Universe Series" provides the best quality and cost performance for your first guitar. Regardless of your budget, all Bacchus products are manufactured with an aim to provide players with excellent quality at an affordable price.

Since 1994, Bacchus has gained tremendous expertise in guitar manufacturing, including everything from the selection of the finest wood to painting & finishing techniques. Today, we have extended our production base in several Asian countries, sharing our expertise and knowledge with luthiers around the world, while still maintaining our high standards.

HANDMADE Series-Electric Guitars

Bacchus Handmade guitars are hand crafted by the most experienced Japanese luthiers at our Aska factory located in Nagano, Japan. Most other guitar manufacturers use factory-line NC routers in order to reduce costs and increase production. However, we believe the selection of tone wood for guitars and basses must be processed and carved by human hand. Our reasoning is simple: all wood materials differ from each other, even among the same species of wood. We need to be able to recognize these difference in order to create quality instruments. The ways in which the wood age, the ways they process, the ways they behave—recognizing these factors require an experienced eye of a skilled luthier. Simply put, our hand crafted guitars produce supreme sounds that will last you a lifetime.

G-PLAYER & G-STUDIO

G-PLAYER ASH/R FS BLK/OIL

G-STUDIO ASH/R FS BR/OIL

G-player & G-studio have been supported by many skilled guitarists because they're designed from the player's point of view. You can choose various sound options, from a bright & defined tone to a rich & warm tone, simply by controlling the tone-blender knob that mixes the output of each pickup.

BODY : LIGHT ASH 2P
NECK : MAPLE
FINGERBOARD : INDIAN ROSEWOOD
SCALE : 25 1/2inch (22F)
PICK UPS : SCC-1 SET/
SCC-1 + MRH-1(G-STUDIO)

FINISH : TOP LACQUER or OIL
COLOR : BLK/Oil,BR/Oil,HB,CS,etc
With ORIGINAL GIG BAG

HANDMADE Series-Electric Basses**WOODLINE ASH**

Woodline Ash is the best-selling 4-string bass in the Bacchus Handmade series. Though this bass follows the basic style of a traditional 4-string bass, the carefully selected light ash material for the body gives this bass guitar an unusually clear and wide-ranging tone. The most characteristic part of the appearance is in its oil-finished body. Oil-finish is known as a superior coating method, for maintaining resonance, as well as for its beautiful appearance. Aside from the natural oil-finish, WOODLINE is also available in various color options. Regarding the control section, WOODLINE offers a push-pull SW pot on the tone knob. The 2 pickups are connected in series if you pull the knob up, producing a fat natural sound. We also offer a 5 string version of WOODLINE.

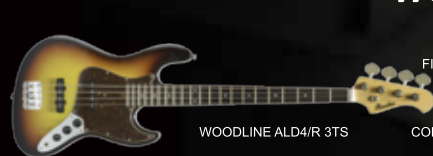

BODY : LIGHT ASH 2P
NECK : MAPLE
FINGERBOARD : EBONY or MAPLE
SCALE : 34inch (21F)
PICK UPS : JB-ALV set
CONTROL : 2Vol,1Tone(Pull up:Turbo SW)
MACHINE HEADS : GOTOH GB11W
BRIDGE : BACCHUS DB
FINISH : OIL or TOP LACQUER
COLOR : BLK/Oil,BR/Oil,NA/Oil,3TS
With ORIGINAL GIG BAG

STANDARD ASH

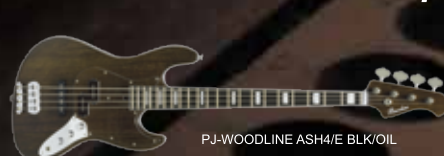

STANDARD ASH follows the basic design and concept of WOODLINE ASH, but comes with active electronics. We chose BARTOLINI XTCT for the preamp section in order to offer players a diverse option for sound control: from a clear and edgy tone that's typical of an ash body to a smooth tone created by cutting off the treble frequency. Our original pickups, Bacchus JB-ALV, are installed on both the neck and bridge position, sending a natural tone signal gained by the rich resonance of the wood to the preamp.

BODY : LIGHT ASH 2P
NECK : MAPLE
FINGERBOARD : EBONY or MAPLE

COLOR : BLK/Oil,BR/Oil,NA/Oil,3TS
With ORIGINAL GIG BAG
TWENTY-FOUR4 3TS
TWENTY-FOUR5 BR/OIL

CRAFT Series-Electric Basses

Bacchus
CRAFT SERIES

Bacchus Craft series started as a response to the player's demand for quality guitars at a lower price. Though this series is built with great attention to detail by experienced Japanese luthiers similar to the Bacchus Handmade series, we were able to cut down the production cost by outsourcing tone wood components. The Craft series is the ideal line of standard electric guitars and basses with an affordable price.

WL-JB ALD or ASH/R or M

GLOBAL Series

Bacchus
GLOBAL SERIES

The Bacchus Global series is made in several Asian factories where the luthiers have inherited the expertise and knowledge from our rich history at our Headway and Aska factories in Japan.

The Global series is not a typical low-cost line with substandard performance, but offer quality instruments at a lower cost. They are just the serious instruments for the serious players.
